This KeepRite® heat pump comes with the newest heating and cooling technology and quality components to give you the ultimate in climate control. You get outstanding quiet, maximum energy savings, and exceptional warranties to assure you of long-lasting satisfaction.

Easy listening.

The high-tech materials and design have another positive effect: quiet operation.

The SX 2300 goes through rigorous testing to make sure it measures up to high KeepRite standards of efficiency, reliability, and durability. Everything from the sound blanket to the two-speed outdoor fan is designed to give you wonderfully quiet operation.

Ongoing satisfaction.

Your investment pays off well into the future because the SX 2300 is built to last.

A heavy-duty cabinet, tougher appliance-grade paint finishes, and a filter dryer that protects the refrigeration system from moisture and debris damage are only some of the features that keep this heat pump in top shape season after season.

Energy economizing.

With higher efficiency standards today, the SX 2300 can save you money every month on utility bills.

SEER¹ and HSPF² are the industry terms used to rate cooling and heating efficiency. With this 13 SEER/7.7 HSPF heat pump, you could save up to 23% compared to many older units.

¹SEER stands for Seasonal Energy Efficiency Ratio and HSPF stands for Heating Seasonal Performance Factor.

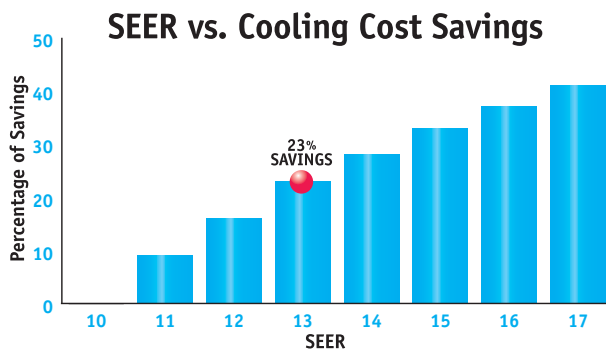

Unrivaled warranties.

Warranties that go beyond the average assure you of lasting reliability.

Every KeepRite unit is backed by exceptional warranties, including our No Hassle Replacement™ limited warranty*, which gives you a replacement unit if the compressor or outdoor coil should fail within the first year. You also get up to a 10 year⁶ parts and compressor limited warranty.* And don't forget to ask your dealer about HELP® extended service agreements for additional worry-free protection for parts and labor coverage.

*See published warranty for complete details. To learn more about all of these limited warranties, including the No Hassle Replacement limited warranty, go to KeepRite.com.

⁶Subject to conditions. Ten year warranty requires timely registration. See detailed additional information on back page and Warranty Certificate at KeepRite.com for complete details.

Percentage based on national averages at 10 SEER; may vary according to efficiency of current unit and installation.

SX 2300 HEAT PUMP

1 Quiet

The Copeland Scroll® compressor operates without noisy pistons and comes with a sound blanket to reduce compressor sound levels.

2 Durable

The painted, galvanized steel cabinet features a powder-coat, baked-on finish and a coated inlet grille with narrower spacing to provide maximum protection as it allows for proper airflow and easy coil cleaning.

3 Efficient

The scroll compressor and 7 mm copper tubing with aluminum fin coils work collectively to save on energy.

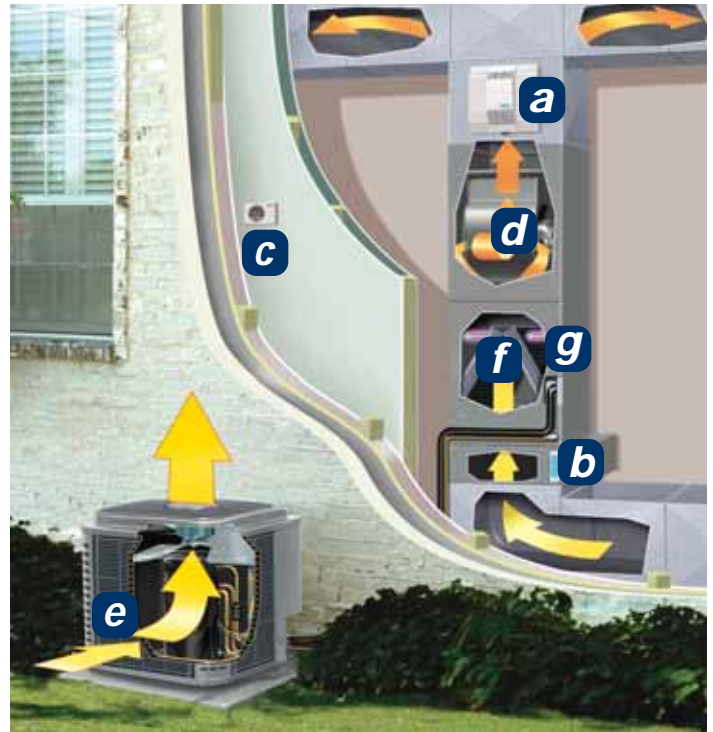

4 Aerodynamic

The two-speed fan motor operates most of the time on quieter, lower speed. Aerodynamic air discharge design reduces operating sounds.

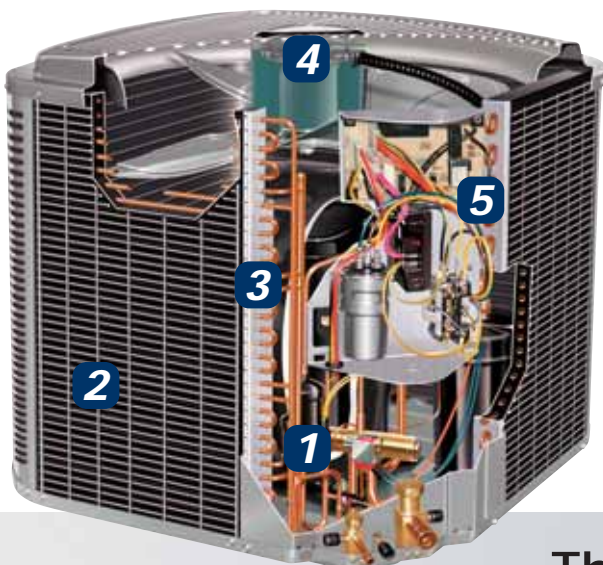

5 Service Friendly

The Comfort Alert® diagnostic system improves accuracy if the unit needs checking. The Plug & Play feature simplifies wiring and provides easy access to speed up service.

Keep warm, keep cool with KeepRite systems. Since heating and cooling systems are designed to work together, it is strongly recommended that you have your dealer install both at the same time for optimum efficiency, savings, and comfort.

- a. Humidifier enhances comfort by reducing dryness in the air.
- b. Air Cleaner filters out many indoor air pollutants so the air in your home is cleaner.
- c. Set-Back Thermostat allows you to customize heating and cooling levels and also save energy.
- d. Fan Coil is designed to optimize airflow and improve cooling and heating efficiency.
- e. Heat Pump keeps your home cool in summer and warm in winter while saving on energy.
- f. Evaporator/Indoor Coil, to match your KeepRite heat pump, assures you of optimum performance.
- g. UV Lights help prevent the growth of microbes on the coils.

The best choice for your home.

* Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR® criteria. Ask your contractor for details or visit www.energystar.gov.

♦ For information regarding furnace or fan coil options that can increase the energy efficiency of selected KeepRite air conditioners (SEER) and heat pumps (SEER and HSPF), go to KeepRite.com and look for “Energy Savings” on the menu.

▲ This KeepRite product carries a ten (10) year limited warranty on parts, including compressor and coils, to original homeowner if installed in an owner-occupied, single-family residence and properly registered within ninety (90) days after original installation. Otherwise, the parts warranty period is five (5) years from the date of installation. Heat exchangers may carry longer limited warranty coverage that applies to original homeowners with timely registration. (See Warranty Certificate for registration instructions. Registration not required in all jurisdictions.)
